

PROJECT NAME: Utah State University Distributed Environment for Critical Infrastructures Decision-Making Exercises (DECIDE)

RECIPIENT: Utah State University

LOCATION: Logan, Utah

PURPOSE: The Distributed Environment for Critical Infrastructures Decision-Making Exercises ("DECIDE") Project is designed to assist large businesses in the development of coordinated responses to a variety of threats based upon those corporations' individual and collective business models. Funding for this project will be used to complete the software requirements for the project and a large-scale exercise will be conducted with major financial services corporations acting as participants.

AMOUNT: \$6,000,000
